Education

Undergrad	UWA Bachelor of Science in Engineering Science and Computer Science	WAM GPA	86.0 6.91	2019 - 2021
Postgrad	UWA Master of Professional Engineering (Software Specialisation)	WAM GPA	85.9 7.00	2022 - 2024

- Achieved the top mark in two units, *Software Testing and Quality Assurance* and *Mobile and Wireless Computing*.
- Received three letters of commendation for excellence in teaching in *Systems Programming* and *Computational Thinking in Python*.

Experience

Aurora Offshore Engineering (AOE) **March 2024 - Present**

React.js, Python, Django, Docker, Kotlin Multiplatform, Azure Container Apps, Azure Front Door

- Completed a paid, published [master's thesis](#) on Distributed Acoustic Sensing at AOE as part of the [Co-operative Education for Enterprise Development \(CEED\)](#) program.
- Built and deployed a web app for subsea engineering using React.js, Django, PostgreSQL and Celery and deployed on Azure at [auroracat.app](#).
- Built a desktop application for engineering analysis with cloud capabilities using Kotlin Multiplatform and Azure, used in-house and by external clients, assisted by two interns.

ICRAR Studentship **Nov 2023 - Feb 2024**

- Joined the [Commensal Real-time ASKAP Fast Transients \(CRAFT\) Survey](#) team researching Fast Radio Bursts (FRBs).
- Conducted a statistical analysis of FRB burst profiles and their host galaxy data using Python, contributing to [multiple papers](#).

Coders for Causes **Jun 2023 - Jul 2023**

Vue.js, TypeScript, Django, Docker, PostgreSQL

- Part of the volunteer team building a website for the Community Spirit Foundation.

UWA Lab Demonstrator **Feb 2022 - Oct 2024**

C, C++, Python, Java, OpenGL

- Computational Thinking in Python
- Systems Programming
- Graphics and Animation
- Computer Networks
- Secure Coding
